the best home cook is born in the kitchen

VIVERE KITCHEN

VIVERE Kitchen is developed to accomodate four important activities that goes beyond cooking. It is also built to **impress, socialize, and entertain** at the same time. With more than 25 years of experience in the interior and furniture industry, we combine beauty with function and quality to create the most convenient kitchen at home.

cook

PASSIONATE COOKING

Our kitchen system allows you to grill, fry, steam, marinate, boil, or bake your favorite home cook, using the best system to accommodate & make all cooking techniques possible.

entertain & socialize

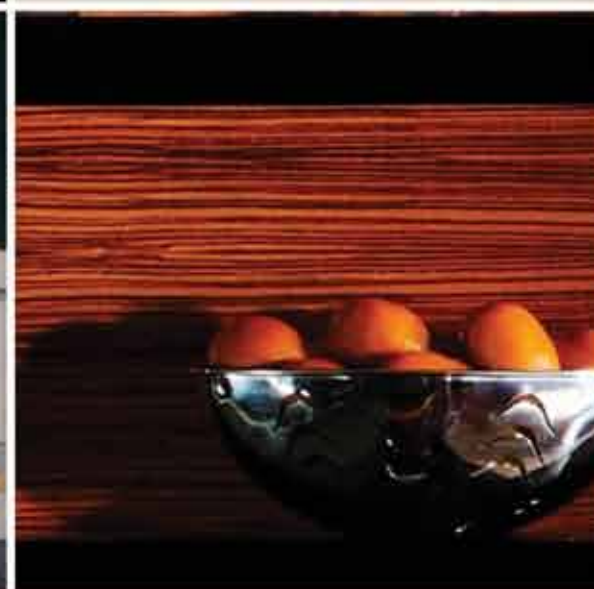

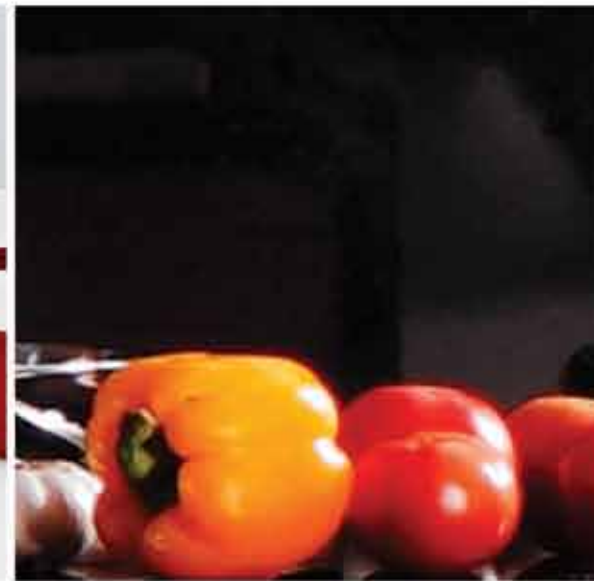

OPEN AREA KITCHEN

VIVERE kitchen is developed with modern open concept. Blend in with another area at home (living or dining room), the open concept kitchen allows the entire family or guests of your dinner gathering to gather round, having meal, and share the moment while the host prepare for dinner. Now, you can cook, impress and entertain at the same time

impress

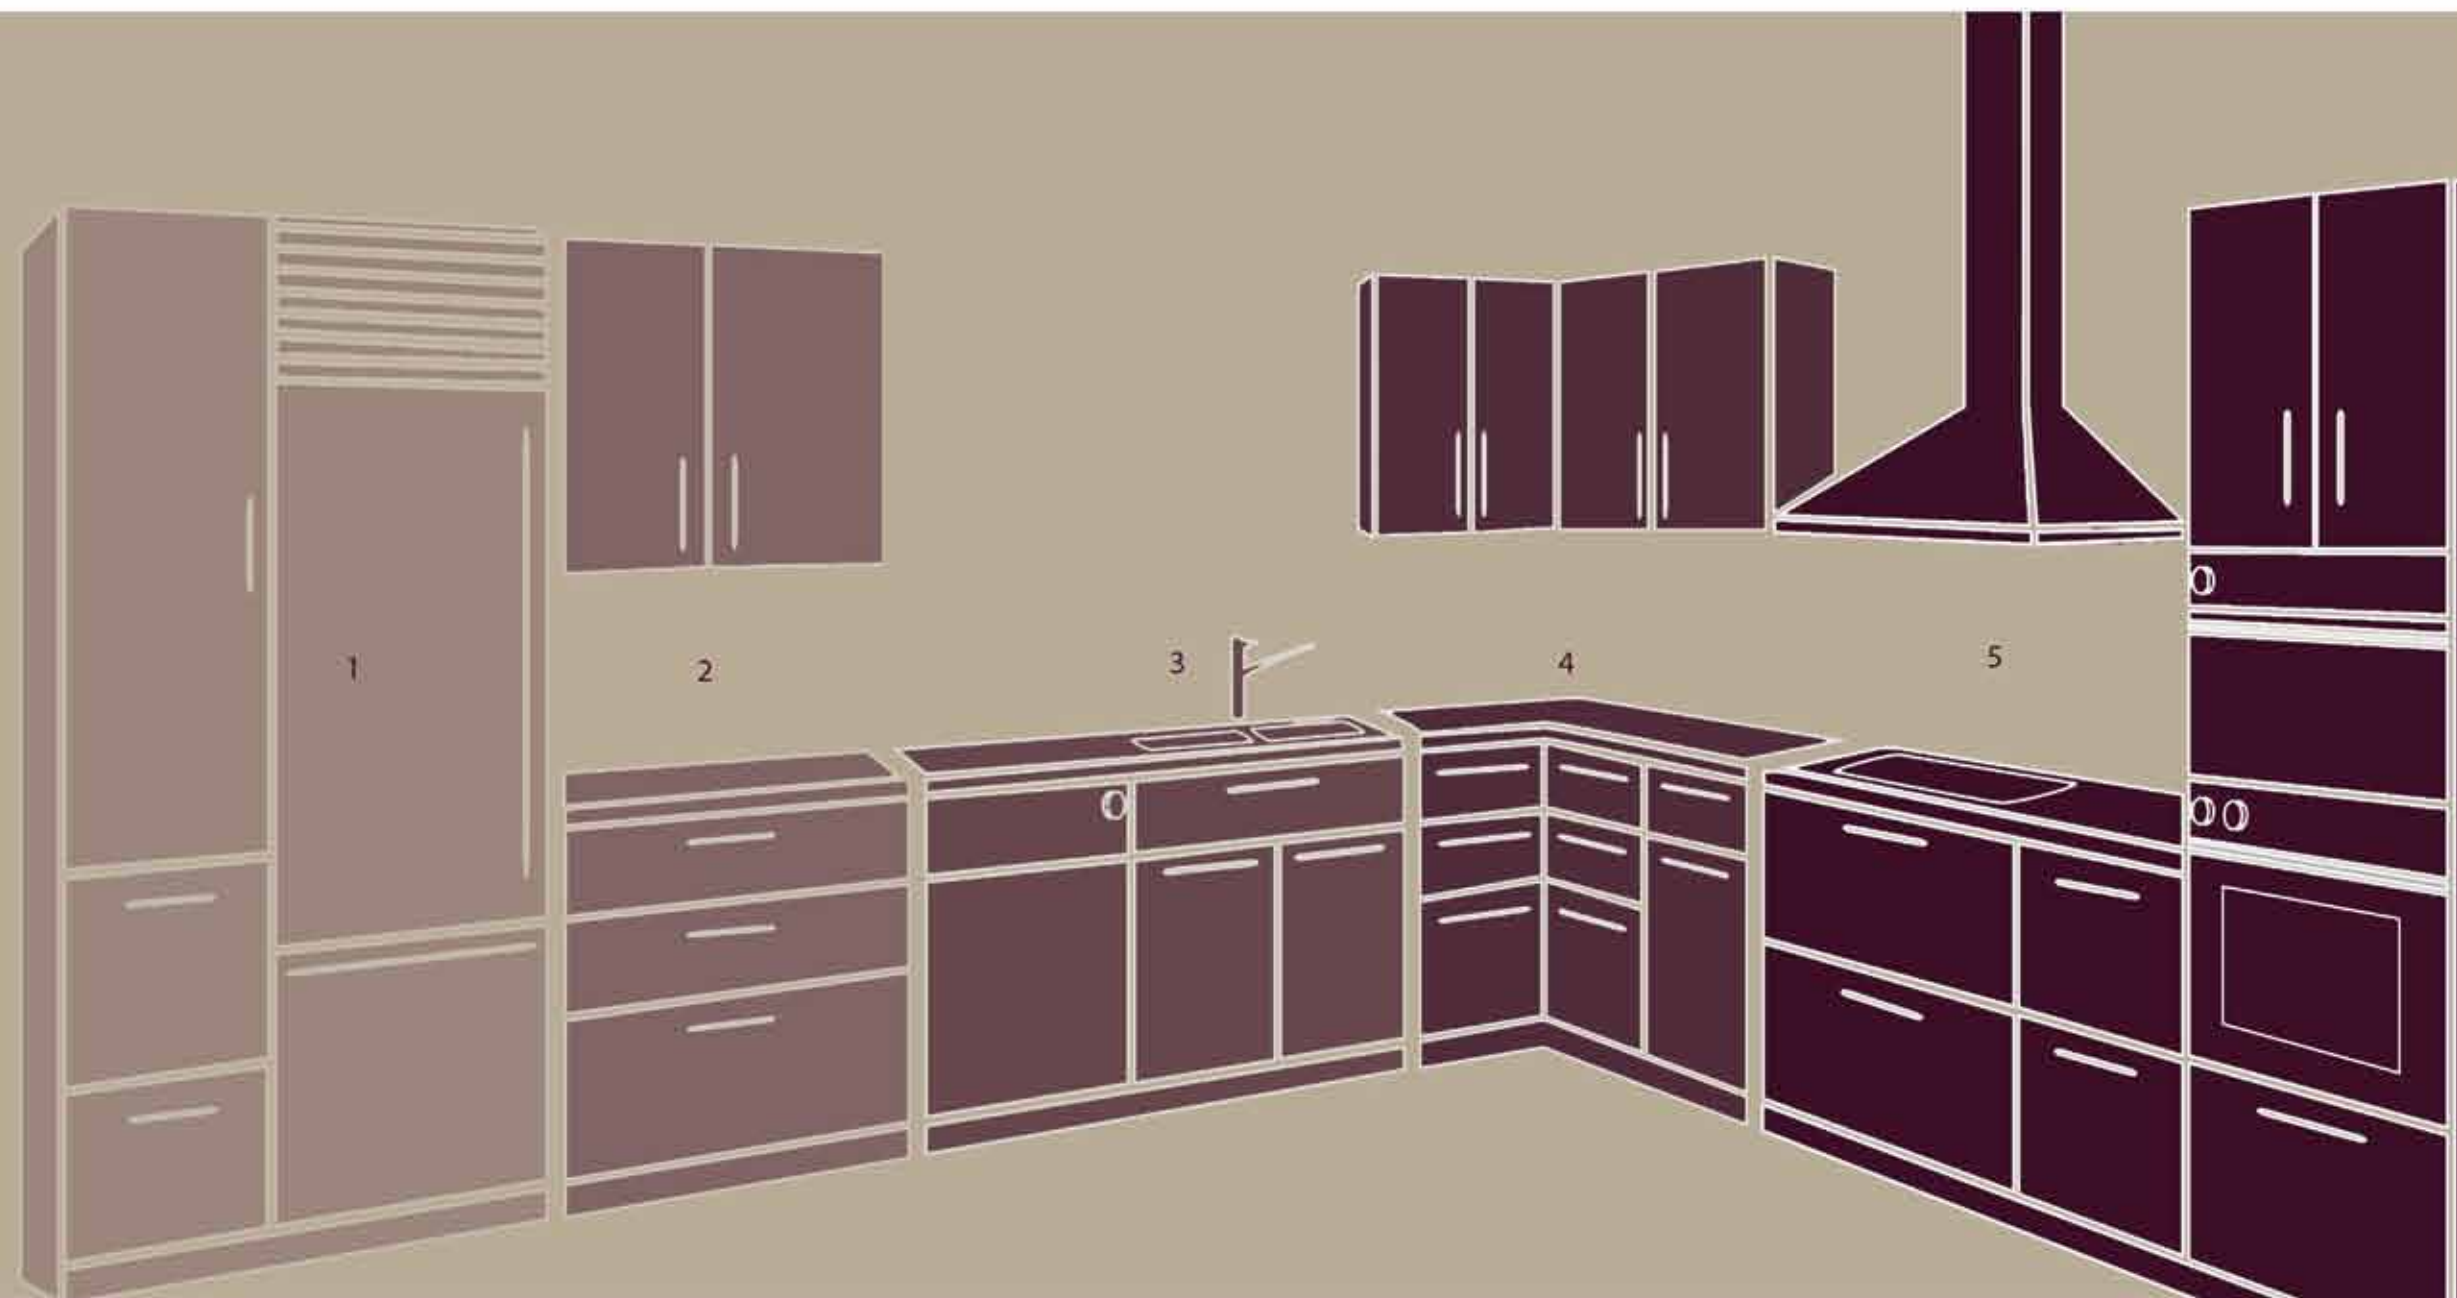

BEAUTIFUL KITCHEN

Our secret in making beautiful kitchen lies to the expertise of our kitchen specialist in blending in diverse choice of premium materials & integrating it with great color options.

convenient kitchen concept

Every VIVERE Kitchen is planned and built into five working zones (preparation, cooking, washing, storing, and waste) to create a more practical work flow, which will make cooking in the kitchen more convenient, organized and fun.

1.storing zone

area to store and organize cooking spices, cooking appliances and cutleries. they are placed into one section so that you could easily find the right tool when you need it.

3.waste zone

Area to keep the trash and other waste after cooking. The garbage is hid to assure the kitchen stay clean and odourless

2.washing zone

Area to clean the raw cooking material as well as the dishes and other cooking tools after it's being used.

4.preparation zone

Area for food preparation. Be it chicken or mixed vegetables you're cutting or mixing spices before it's being cooked.

5.cooking zone

Area to cook the meal, where you place your stove, and cooking hood. Frying, steaming, or grilling, anything can be done here.

THE MASTERPIECE KITCHEN

Embracing modern style within its design, the look and feel of VIVERE Kitchen could be adjusted to the customers' personal preference, be it luxurious, natural, urban chic, anyway you want it.

luxurious kitchen

This kitchen configuration is designed with luxury in look and function, aiming to impress during social gathering at home. Combination of glass, stainless and solid color is the key to create luxurious vibes.

Adding center piece (island) in the center of the kitchen gives greater space to socialize, cook and entertain.

With more space in this kitchen, it creates more luxury in organizing the cooking appliances; including build in storage system to hid electronic appliances (refrigerator, oven etc) ensuring the kitchen area to stay neat & clean.
