NEST PANEL SYSTEM

workstation collection from vivere

what is nest system?

NEST is the latest panel system from Artland, a renowned global supplier of office furniture. It is a well designed system that offers flexibility, precision, and the ability to adapt to advancements in Information Technology.

a blend of beauty & practicality

**NEST IS NOW LICENSED & MANUFACTURED
LOCALLY IN INDONESIA, ADHERING TO STRICT
INTERNATIONAL STANDARDS.**

CLEAR ADVANTAGES OF NEST PANEL SYSTEM

- > The most up-to-date design, equal to any imported products
- > Can be combined as desking system
- > Quicker delivery time as local product

**INTERNATIONAL DESIGN & QUALITY, LOCAL DELIVERY TIME
AN UNBEATABLE COMBINATION.**

The industry's typical 10 -12 weeks delivery time for imported products are simply not acceptable when a new office is critically required. If six months down the road the business expands and demands additional workstations, another 10 to 12 weeks will be truly unreasonable. As a locally manufactured product, **delivery time is significantly 50% quicker** than imported workstations.

cabling management

Office furniture today is not only furniture. Integrating cable management into the modern system furniture is an innovative solution for the work place to make it clean, simple and efficient

BEAUTIFULLY INTEGRATED P40 + P80

A variety of panels with various height, thickness and materials have been incorporated into NEST, each to enhance the aesthetics, supports users "individual work styles and comfort" and to simplify team interactions.

P80

The panel on NEST system is **engineered for strength**, consistent, strict reveals on tiles & top trim designed for a unified, clean look throughout. The panels is also **engineered for beauty**, extruded aluminum trim remains straight and true even as components are reconfigured time after time.

cabling management

Power and data connectivity in NEST system is integrated with the Derek Office Electric System, which enable "plug & play" connectivity for power & data easily. It's not only result in less cost for company, but also more safety and convenience to people is the company.

MODULES CONFIGURATION

people centric

a complete platform of surfaces, storage and spaces that create more personalized and productive place to work

above | MGR 2 persons semi free standing desk - P80 + P8 NEST panel with spider leg support
below | staff 3 persons - P80 & P40 NEST panel with spider leg support
